A typographic error occurred in eq 2. That equation was copied-and-pasted from the previously published paper¹ (ref 34 in the article) where it was originally mistyped. The factor 1/2 is missing on the RHS of eq 2, which should have had the form

$$U_{\text{ext}}^{\text{hb}} \equiv U_{\text{ext}}^{\text{hb}}(x) = \frac{1}{2}[\varepsilon_s(x) n_s(x) - \varepsilon_b n_b] \quad (\eta \leq x < \infty)$$

(and so should the analogous equation in ref 34 of the article).
