

ADDITIONS AND CORRECTIONS

2009, Volume 113B

Yoko Arikuma, Kazuki Takeda, Tomoyuki Morita, Masashi Ohmae, and Shunsaku Kimura*: Linker Effects on Monolayer Formation and Long-Range Electron Transfer in Helical Peptide Monolayers

Page 6263–6264. We have found that there are errors in eqs 1 and 2. The corrected versions are shown below.

$$P_{\text{et}} \propto \frac{\sqrt{2m\Delta E_1} e^2 \alpha}{h^2 d} \exp\left[-\frac{4\pi\sqrt{2m}}{h} \alpha \sqrt{\Delta E_1} d\right] \quad (1)$$

$$k_{\text{et}}^0 = \frac{(k_{1\text{f}}/k_{1\text{b}})\Psi}{(1/k_{18\text{f}}) + (\Psi/k_{1\text{b}}) + ((1 + \Phi)/k_{17\text{b}})},$$

$$\Psi = \prod_{i=2}^{17} \frac{k_{i\text{f}}}{k_{i\text{b}}}, \quad \Phi = \sum_{j=2}^{16} \left(\prod_{i=j}^{16} \frac{k_{i+1\text{f}}}{k_{i\text{b}}} \right) \quad (2)$$

Since these errors were caused during the editorial process, the correction does not affect our discussion and conclusions.
