Magdalene Baciu, Michael C. Holmes,* and Marc S. Leaver: Morphological Transitions in Model Membrane Systems by the Addition of Anesthetics

The acknowledgements to this paper should have read as follows:

M.B. would like to thank the University of Central Lancashire for a research studentship. This work was partially supported by the EU Marie Curie Host Fellowship program “Surface and colloid technology—self-assembled structures of biological and technological relevance” (contract no. HPMT-CT-2000-00150) at Lund University, Sweden. We would particularly like to thank Professor Ulf Olsson for help and advice with this work and Professor W. Winlow for useful discussions.
