

Correction to Surface Adsorption of Oppositely Charged C₁₄TAB-PAMPS Mixtures at the Air/Water Interface and the Impact on Foam Film Stability

Heiko Fauser, Regine von Klitzing*, and Richard A. Campbell*

J. Phys. Chem. B **2015**, *119* (1), 348–358. DOI: [10.1021/jp509631b](https://doi.org/10.1021/jp509631b)

Equation 7 was stated in our original paper as

$$\Gamma = \frac{\sqrt{\epsilon_{r,\text{surf}} - \epsilon_{r,\text{sub}}}}{\frac{dn}{dc}} \times d \quad (7)$$

This was incorrect, however, and it should have been stated as

$$\Gamma = \frac{\sqrt{\epsilon_{r,\text{surf}}} - \sqrt{\epsilon_{r,\text{sub}}}}{\frac{dn}{dc}} \times d \quad (7)$$

While a word processing error led to the wrong equation being included in the published article, the correct equation was in fact used throughout the calculations in the manuscript.
